

WE LOVE WATER
WE THANK WATER
WE RESPECT WATER
WE ARE ALL WATER
WE ARE ALL ONE

Title quote from "Messages from water" by Masaru Emoto

WASTE WATER TREATMENT SOLUTIONS

Ecology adds value to your products
and your Corporate profile.

Our own laboratory supports research and services to our Customers, providing a complete pre- and after sales service, including analysis and diagnostics and the supply of a wide range of products for use in the primary and cooling water treatments, such as:

Cationic and anionic polyelectrolytes
De-colourizing agents
De-foaming agents
Bacteria and enzymes

**We offer our products and services to
the following industrial sectors:**

Civil and industrial wastewater
Food processing
Milk and dairy products
Chemicals, plastics and paints

Textile & Leather processing
Bottling and beverage
Meat packing & processing
Energy production

SOLUTIONS THAT WORK

For over 10 years Ekos Srl, has been providing solutions for wastewater treatment in various industrial fields from a capacity of just 100 litres to 300.000 litres per hour. We offer a complete service from design to complete “turnkey” plants to satisfy the many different needs for the cleaned water to comply with legal parameters as well full recovery and re-cycling.

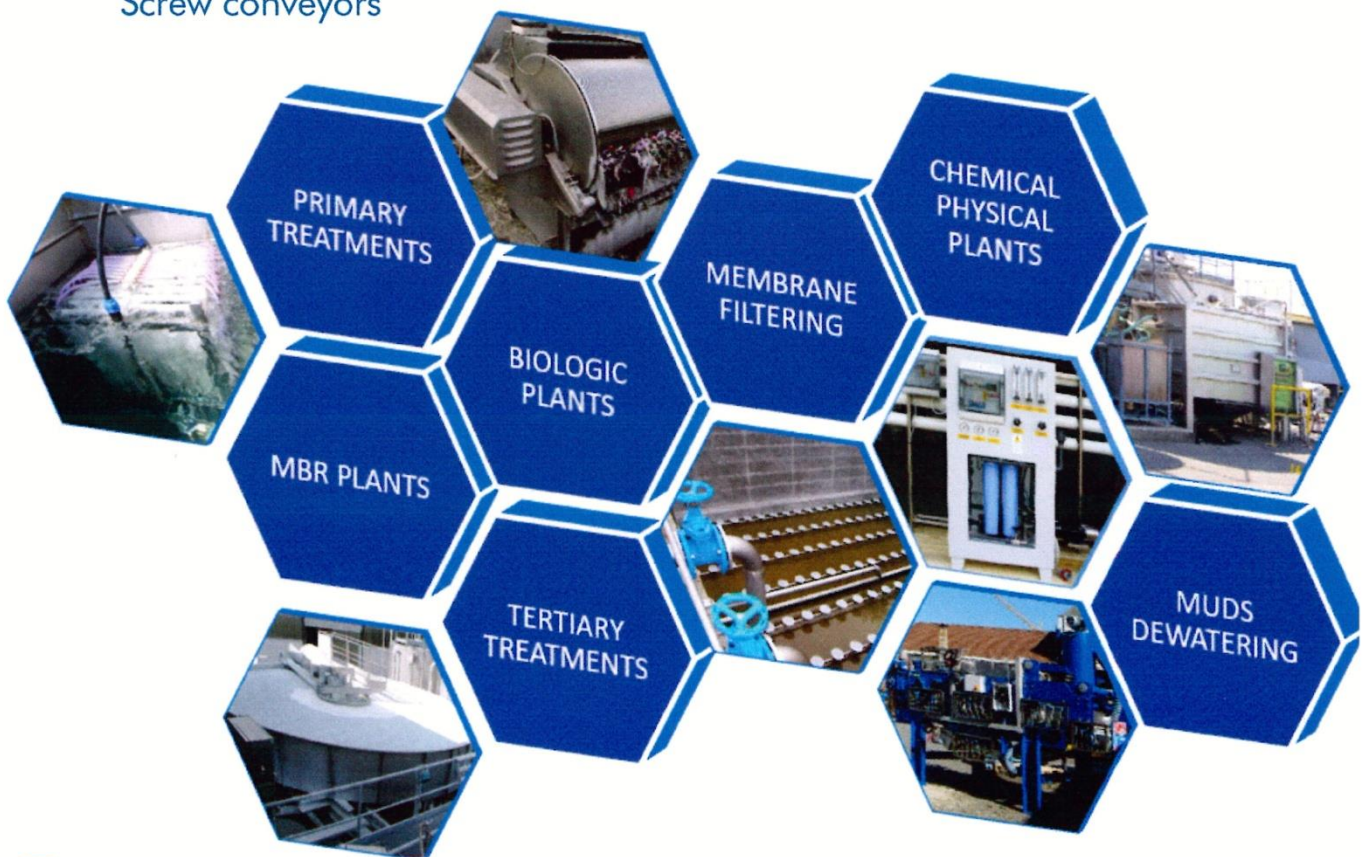

Our Project Engineering Team design, assemble and supply systems for:

Feed water

De-ironing Treatments Coarse solids removal Rainwater Softening/RO plants Microfiltration plants

Waste water

Primary treatment Biological treatments Tertiary Chemical conditioning Sludge dewatering Disinfection Membrane filtration Active-carbon filtration Screw conveyors

EKOS SRL

Keep it simple, keep it Ekos
